

Flooring Worksheet

If your new home has worn or damaged flooring, one of your first home improvements should be installing new flooring. To get started with this DIY project, write down detailed measurements of your room, draw your space, and then bring the worksheet with you as you shop.

Flooring Worksheet	
Helpful Hints:	
	Bring along fabric swatches and paint chips to help you make your decision.
	Add 10% to measurements to allow for cuts.
	Don't forget to purchase padding for carpeting.
	Consider an area rug for hard-surface flooring.
A large grid area for drawing and measurements.
